

GSSF Made Simple

Safety

GSSF are “cold” ranges.

(This includes concealed carry permit holders and law enforcement officers.)

Eye and ear protection is required of **ALL** participants. See Registration if you need eye and ear protection.

You may handle firearms while under the supervision of a range officer, the GLOCK Armorer or in one of the designated safety zones. All other times, firearms will be stored in a suitable bag, GLOCK box or container. When holstered, the firearm’s slide must be locked to the rear.

NO AMMUNITION IS TO BE HANDLED IN SAFETY ZONES!

If you have ANY questions about safety, ask a range officer, the Range Master or Registration.

We want everyone to have a safe and fun time!

Registration

Liability forms:

Everyone has to fill one out (pre-registered, walk ups, range officers, even spectators.) They are located at Registration. Read, print and sign your name.

Which GLOCK for Which Division?

There are seven divisions that can be shot in at the match. Your model of GLOCK pistol and your shooting expertise will determine your eligibility. You may shoot in all divisions you are eligible for. Please see the list at the end of this document for details.

PRE-REGISTER!

You can mail or fax your entry to GSSF no later than Wednesday 12:00 noon prior to the match. We are working on accepting online payments but it is not ready yet. Pre-registered competitors have priority at the start of registration. Just give your name and liability form and your pre-printed labels will be ready for you. Remember, pre-registration closes on the Wednesday, prior to the match.

Walk-ups:

If you have access to the internet or have a copy of the registration form from The GLOCK Report,

print and fill out your registration form prior to the match. Sign a liability form and bring both with you to the Registration desk.

Hint:

*There is an additional, one-time \$10 administration fee for walk up competitors. Pre-Register and **SAVE!***

Note:

GSSF gives you the option to shoot Saturday, Sunday or both days as you choose. You may be able to complete the match in as little as 2 hours, but plan on being at the range all day.

Other paperwork:

In addition to registration and liability forms, other optional forms are available (Team Registrations, Questionnaires, & Family Membership Forms)

Scoring Issues:

If you have any scoring issues please report them to Registration.

At the match...

If you are new to GSSF you should read a competitor briefing. This publication will be found at registration.

Hint:

Read Volume I of The GLOCK Report and ask any questions you may have at registration.

Sign-in Sheets:

When you are registered visit the stages to sign up on the sign in sheet. Sign in sheets are run like squads. "Up", "on deck" and "in the hole" competitors will be called out followed by 6-8 additional entries of those PRESENT on the stage. This becomes the squad. As competitors complete their entries, names will be called as a new squad is formed with those competitors who are present and highest on the list.

Hint:

After you register, sign your name on the sign in sheets as soon as possible. Pick a stage with the least number of people. Listen for your name and position.

Be Ready:

Have your equipment ready, magazines loaded, and have an understanding of the stage procedure before you are called in the "up" and "on deck" positions.

Hint:

Help paste and reset steel until you are called "in the hole."

When you are called "in the hole," make sure your magazines are loaded and you understand the course of fire.

When you are called "on deck," prepare yourself to shoot the stage.

When you are called "up," move to the firing line with your equipment. You may set up your equipment at the position, but do not handle firearms until you are instructed to do so by the range officer.

Help Out:

Pasting and resetting steel while you are waiting to be called as the “up” or “on deck” shooter will help keep the stage running as quickly as possible. Make sure targets have been scored before you tape or reset steel.

Completing your entry:

Double check your scores to make sure they have been entered correctly before initialing the score sheet . You will be given a copy of your score sheets.

When you are finished...

Congratulations!

You do not need to report to Registration after you have finished the match unless there is an error or problem you need to clarify.

Electronic Scoring

Keep your copies of your score sheets to verify your scores on www.gssfonline.com.

Scoring Errors

If you feel there has been an error, call, fax, or email us at gssf@glock.us . We will locate your score sheets and correct any errors.

Results

Try to be patient. In most cases, preliminary results are sometimes posted the same weekend as the match, but should be up by the Tuesday following the match. Please do not call GSSF to ask when results will be posted. GSSF is dedicated to getting accurate results out as fast as possible. Be sure to check your scores within that first week and report any errors to GSSF by email, by fax, or call us. Corrections will be posted to www.gssfonline.com before the final results are posted and prizes mailed.

Final Results:

Final results with prize distribution is usually posted 2-3 weeks after the match. This allows time for any corrections to be made and results processed. Scoring corrections will not be made after finals have been posted.

Prizes:

Prizes are mailed after final results are posted.
